# Lac Ste Anne Summer Village Regionalization Study (SVRS)

Join us on **Thursday, October 28th, 2021** to learn about the project process, timelines, and goals; provide your feedback on current services and governance in your community; and share what you feel are important values for potential regionalization.

## WHAT IS THE SVRS?

The Summer Villages on Lac Ste. Anne have long discussed ways to improve partnerships, cost sharing, and other efficiencies between their communities. With several current collaborations and sharing the same body of water, the Summer Villages are undertaking an assessment of regionalization options. No decision has been made about regionalization. The project will provide the Summer Villages with a thorough analysis of regionalization options to consider.

## FOR MORE INFORMATION:

The project website provides an overview of the project and will be updated regularly.
