Note: Development shall also conform to the Alberta Electrical and Communication Utility Code. A copy of TABLE 9 – Minimum Design Clearances From Wires and Conductors not Attached to Buildings, Signs and Similar Plants is attached to the permit for your information.

- 12- All improvements shall be completed within twelve (12) months of the effective date of the permit.
- 13- The applicant is responsible for determining if there are any special considerations required for building foundation construction.
- 14- Positive grading must be provided to ensure drainage. A minimum gradient of two percent (and greater if possible) is recommended.
- 15- All development shall be landscaped and graded in a manner that all surface run-off is either contained on-site, directed into an existing water body (i.e. the lake) or public drainage system (i.e. a municipal ditch). All buildings must be completed with eaves which either drain into the ditch at the front of the property or into the lake.
- 16- The site and improvements thereon shall be maintained in a clean and tidy condition during construction, free from rubbish and debris. Receptacles for the purpose of disposing of rubbish and debris shall be provided to prevent scatter of debris and rubbish.
- 17- No person shall keep or permit to be kept in any part of a yard any excavation, storage or piling of materials required during the construction stage unless all necessary safety measures are undertaken. The owner of such materials or excavation must assume full responsibility to ensure the situation does not prevail any longer than reasonably necessary to complete a particular stage of construction.

Note: Additional approvals may be required from Provincial and / or Federal Departments and Agencies. It is the responsibility of the Applicant(s) to make themselves aware of such requirements and garner approval(s) where required.
